

# GoldenGrip™ Internal Pipe Wrench

U.S. Patent No. 6,675,679B2

The Right Tool for the Job

No other tool compares. That's because it's the world's only self-locking, reversible, internal wrench. Use it with ratchets, extensions and impact wrenches, to get in fast and get the job done right the first time. This revolutionary design can remove even the most stubborn nipples.

- Easy to Use
- Works on Corroded Pipe
- Self-Locking and Reversible
- Made of Heat Tempered Steel
- For use with Schedule 40 Pipe
- Fits Standard  $\frac{3}{8}$ " and  $\frac{1}{2}$ " Ratchets

Available in Single Grip sizes for 1/2" and 3/4" pipe and Double Grip sizes ranging from 1" to 2" for Schedule 40 pipe.

Designed and manufactured to the demanding specifications of the professional tradesman.

Each tool is individually inspected and assembled to assure the finest quality.
